

Parkinson's Connection of Central New Mexico
Movement Disorders Specialists, General Neurologists, and Nurse Practitioners
in New Mexico and Neighboring States

Movement Disorders Specialists are neurologists with additional training in treating Parkinson's and other movement disorders. About 75% of their caseload is people with Parkinson's whereas a general neurologist doesn't have this special training and has a Parkinson's caseload of about 20%.

2400 Unser SE
Presbyterian Rust Medical Center
Physician Office Building
505 291-2730

QUESTIONS TO ASK YOUR DOCTOR

- How many people with Parkinson's do you treat?
- How do my other health conditions and medications affect my PD and how it's treated?
- Are you aware of new research and treatments?
- Are there lifestyle changes that can help my PD?
- Who would you suggest for a second opinion? A reputable doctor will not be offended.
